

Petition Background (Preamble): We insist the application for the gravel/sand mining operations by Standard Construction Company, Inc. with the landowner, Three Sisters, LLC, be refused. The irreversible damage to our natural resources and the noise produced will harm the environment and dramatically reduce the value of homes and property, which is many cases, are the single largest investment for families that live in DeSoto County.

Petition: We, the undersigned, insist that the DeSoto County Board of Adjustment refuse the conditional use application put forth by Standard Construction (and landowner, Three Sisters, LLC) for a gravel and sand mining operation at the location: Parcel #2-06-5-22-00-0-00034-00 at 9641 Woolsey Road, Olive Branch, MS 38654. This property is currently zoned as agricultural-residential in District 1. Furthermore, we stand united in our request to see DeSoto County zoning regulations revised so that mining will no longer be allowed, conditional use or otherwise, in AR zoned (highly residential) areas.
